

MH200F/MH200FR

MH200F

MH200FR

Description:

1. Crank design, strong pressure and low air consumption.
2. Stamping pressure, temperature and speed adjustable.
3. Worktable can be pushed in and out manually for safety operation.
4. Worktable can be adjusted left/right and angle.
5. Auto foil feeding and winding with adjustable function.
6. The height of stamping head can be adjusted.
7. Worktable shuttle to rotate the substrate for round stamping, which ensures table quality.

8. It is widely used for electric, cosmetic, jewelry package, toy and surface decoration.

9. It is widely used for electric, cosmetic, jewelry package, toy and surface decoration.

Tech-data:

Model	MH200F	MH200FR
Heating plate size	150×200mm	150×200mm
Worktable Size	170×220mm	128×128mm
Stamping Head Stroke	53mm	53mm
Max. article Height	235mm	140mm
Stamping temperature	Room Temperature~280℃	Room Temperature~280℃
Stamping Pressure	≤500kgf	≤500kgf
Max. Stamping Speed	1300pcs/hr	1100pcs/hr
Air Pressure	4~7bar	4~7bar
Air Consumption	≤80L/min	≤120L/min
Power Supply	220V 60Hz/50Hz	220V 60Hz/50Hz
Heating Power	1000W	1000W
Weight	120kg	140kg
